

Well & Reservoir Surveillance

Operations activity and subset of [Subsurface E&P Disciplines](#) with a focus on [Data Acquisition](#) on well conditions, fluid and reservoir properties:

Well Testing	Well Logging	Cross-well Surveillance
Fluid Sampling	Surveillance While Drilling	Cross-well Pressure Test
Flowrate Tests	Open Hole Logging	Cross-Well Tracer Surveillance
Pressure Tests	Cased Hole Logging	Cross-well Microseismic
Surface Well Tests	Vertical Seismic Profiling	
Subsurface Well Tests		
Single-Well Tests		
Multi-Well Tests
