

# Surface E&P Disciplines

@wikipedia

A set of knowledge domains facilitating [Upstream](#) operations at surface:

Production Gathering Engineering	Designing and monitoring <a href="#">production gathering systems</a>
Pipeline Engineering	Designing and monitoring the <a href="#">pipelines</a>
Water Supply	Designing and monitoring <a href="#">Water Supply Systems</a>
Gas Supply	Designing and monitoring <a href="#">Gas Supply Systems</a>
Commercial metering	Designing and monitoring <a href="#">Commercial Metering Stations</a>
Surface Chemical Engineering	Designing the fluid processing and chemical treatments for optimal performance of <a href="#">surface facilities</a>
