

Average Percentage Error = APE

Synonym: Average Relative Error (ARE) = Average Percentage Error (APE)

Statistical metric characterizing the **model** prediction quality (**goodness of fit**) between the **datasets** of a given variable x and its **estimator** \hat{x} :

$$(1) \quad \text{APE} = \frac{100}{N} \sum_{k=1}^N \frac{\hat{x}_k - x_k}{x_k}$$
