

Geological Model (GM)

- [PRA – Probabilistic Reserves Analysis](#)
- [GFM – Geomechanical Field Modelling](#)
- [PPD – Petrophysical Property Distribution](#)
- [SFM – Sedimentary Facies Modelling](#)
- [GSM – Geological Structure Modelling](#)

Goals

- Building 3D-grid model of the hydrocarbon and/or water deposits
- Assessing the initial hydrocarbon and water reserves in place

Objectives

- [Geological Structure Modelling](#)
- [Sedimental Facies Modelling](#)
- [Petrophysical Property Distribution](#)
- [Geomechanical Field Modelling](#)
- [Geothermal Modelling](#)
- [Probabilistic Reserves Analysis](#)
