

Surface Tank Hydrocarbon In Place = STHCIP

@wikipedia

Volumetric value of current (remaining) [Hydrocarbon In Place \(HCIP\)](#) recalculated to [NTP](#) conditions and represented by two numbers: { [Stock-Tank Oil In-Place \(STOIP\)](#) , [Stock-Tank Gas In-Place \(STGIP\)](#) }

Before the [anthropogenic invasion](#) the current and initial volumes of [Petroleum Hydrocarbons](#) are the same: [STHCIP](#) = [STHClIP](#)
